

## Stiftung LebensBlicke MD/PhD/Master Scholarships 2026 for Research Projects at Huntsman Cancer Institute in USA

The Stiftung LebensBlicke ([www.lebensblicke.de](http://www.lebensblicke.de)) is awarding scholarships to motivated and committed **MD students, PhD students or Master's students** in collaboration with Prof. Dr. Cornelia Ulrich, Executive Director of the Comprehensive Cancer Center at Huntsman Cancer Institute.

Scholarships for **9 to 12 months** are available for MD students, PhD students, or Master's students who are eager to advance their careers in a vibrant, highly collaborative environment by joining an interdisciplinary team at a comprehensive cancer center ([Huntsman Cancer Institute | University of Utah Health](http://Huntsman Cancer Institute | University of Utah Health)) in **Salt Lake City, United States**. The Stiftung LebensBlicke aims to support the development of ambitious researchers, with a particular focus on colorectal cancer prognosis, molecular diagnostics, and cancer survivorship.

In the [ColoCare Study](#), the scholar will conduct research projects, for example on body composition, health behaviors (e.g., diet, aspirin intake and physical activity), health outcomes (e.g., quality of life, fatigue), molecular mechanisms (e.g., microbiome, metabolomics, inflammation) in the context of colorectal cancer survivorship. The student may be involved in high impact research projects, publications, statistical analyses, and active participation in study coordination and grant applications.

**We are seeking an MD, PhD, or Master's student in a related field with the following profile:**

- MD student (after Physikum / pre-clinical training)
- PhD student
- MPH or MSc student in a related field
- Highly motivated, well-organized, and a quick learner
- Excellent team player who enjoys working in a diverse, interdisciplinary environment
- Proficient in English

### Interested?

**Please send your CV and a brief cover letter until June 5, 2026 to:**
